2015

WELCOME

In front of you lies our new 2015 Winter Catalogue with a carefully selected collection. We have selected functional products that are fun to give and receive. These are all products that allow you to stand out.

This year's theme is 'connectivity'; the (re)connection that people have with one another. This can be translated in a lot of ways. Our 'power banks' for example are an almost indispensable accessory in the world we live in. The products in our Home & Living section emphasize another kind of connection, these are best enjoyed together. And when you are looking for a trendy, durable and highly functional jacket, XD Apparel clothing is made just for you. We hope you enjoy looking at and reading our catalogue.

REFILL

To ensure mobile connectivity with our social circles, power banks are the solution. Recharging a device with a power bank is one thing, refilling the bank is another. Now there is a power bank, version 2.0, one that automatically fills its internal battery as soon as the mobile phone is fully recharged. Double duty.

3 REASONS WHY DOBBLE ASSURES PEACE OF MIND

1

You will never forget to charge Dobble.
Unlike other power banks, Dobble charges itself automatically after charging your mobile device, so it will always be fully charged when you start you day!

2

You will never run out of battery again.
Dobble helps you through the day, plug it into your device for a complete battery charge or use it to charge from any USB power outlet!

3

Easy to carry and easy to use.
The most convenient power solution available, Dobble is compact, serves as a stand and keeps your cable tidy.

'ISLANDS IN THE STREAM'

A classic like this or any other kind of
music is mostly listened to privately
with earplugs or headphones in trains,
buses, streets…, anywhere really.
In recent years, the music we listen
to is not on tangible media storage
products, but it is mostly retrieved
through downloads or indeed…
streaming. So connectivity is a must!

PACKED TO GO

The world is getting smaller.
Globalisation sees more and more
people travelling all over the globe.
And whilst on the road towards
new destinations, we like to stay in
touch with our home base, keep the
connection with our roots intact. It
seems only logical to combine a travel
accessory and a charging battery.
Connect and go!

3 REASONS WHY HYBRID IS YOUR MUST-HAVE BACKPACK

1

Inside the backpack it charges up to 2 devices simultaneously, including your tablet, while on the go.

2

The extendable cable makes sure you can keep using your phone from the smartphone pocket while it continues charging.

3

You don't need to take out the powerbank to charge it, just unzip the cable from the side pocket, and plug it in a power outlet to get charged for the next day.

FLEUR DE SEL

In Guérande, France, salt is still gathered in the same way as it was by the ancient celts, using baskets through which the sea water is strained. This makes the salt very expensive and highly sought after, especially the finest quality version called Fleur de Sel (flower of salt). This salt is sprinkled on food prior to serving – it is never used in cooking.

WHO WE ARE

XD Apparel is a sustainable premium performance outerwear brand that strives to have the lightest environmental footprint. We design every product with one clear idea in mind: limit our impact on nature by reducing waste, energy and water use, and to work with suppliers and manufacturers that share our vision and respect the highest environmental and social standards. Guaranteed, and certified, by bluesign and third party auditors.

FEEL THE DIFFERENCE

XD Apparel takes great care to design garments that fit well and look good so that users will feel the difference. We have developed tailored cuts that offer clean aesthetics and high protection from foul weather so that users can enjoy them for a wide variety of uses and climate conditions. Our dedication to details, finishing and special features is how we believe we make products that are a cut above the market standards. Last, but not least, by far, we work with fabric and component suppliers on the cutting edge of sustainability who have developed recycled materials and trimmings that perform, feel and look as well as or better than conventionally made products.

ENVIRONMENTAL STANDARDS

bluesign® is widely considered the best-practice approach in performance apparel. The highly specialized audit company ensures that every stage of the manufacturing process complies with its strict environmental and performance standards.

There is no room for compromise. The certification process requires that all component and ingredient suppliers, including dyes, convert their internal processes to bluesign® standards. The effort is definitely worth it, for everyone involved – suppliers, customers, and the environment.

**100% of all outer shell fabrics used
by XD Apparel is certified bluesign® approved fabrics.**

We are proud to be a part of the drive to make the world a better place by respecting the demanding standards set down by world-leading certification organizations. We stand by these principles and hope you do too.

SUPERIOR TAILORING

Design, fit and aesthetics are some of the reasons people form close bonds with the clothing they love to wear. Our goal with XD Apparel is to make garments that last and are worn with long-lasting enjoyment. Clothing that fits well and performs well, durably. This is why we are particularly attentive to best-in-class grading and fitting in our quest to make clothing that users will want to wear.

SOPHISTICATED BRANDING

Our extensive range of distinctive yet subtle customization options brings branding to a new level of sophistication and refinement. Our printing and customizing facilities boast state-of-the-art equipment and experienced staff. We promote a minimalistic subtle imprint so the receiver will use the jacket even after the event. Our integrated service guarantees fast response times to all requests and represents our commitment to local manufacturing and communities.
LAYER ON LAYER

The XD Apparel collection is actually an all-year-round collection. Dublin, Hamburg, Lisbon and Brussels are ideal jackets for spring, fall, early summer and even when summer evenings are a bit chilly.

Stockholm, Helsinki and Warsaw are ideal for wearing at temperatures as low as -10° degrees due to the Thermore® Aria 115 gr padding. The Oslo (with Thermore® Aria 170 gr) and Riga, the all-year parka, will offer you maximum comfort at temperatures below -25° degrees!

However there are many more options and we call that layer on layer!

Although our jackets are water-repellent and windproof, you can imagine there are really tough situations when you could prefer extra protection. In this case a combination of two jackets will create the ultimate comfort.

SNUG WARMTH WITHOUT WEIGHT

Oslo is XD Apparel's best all-round winter jacket. Its carefully crafted design means it won't look or feel boxy, while shaped seaming for women provide a snug and close fit. Minimal quilting lines create a clean and lean silhouette while allowing room for layering and freedom of movement. For extra protection against the cold, we've added a fitted, detachable hood, and soft and warm wrist cuffs will keep the cold air from coming in.

STRONG POINTS

- Warmth*** and easy care (polyester padding Aria)
- Padded jacket
- Perfect look (color playful/nice fit)

HIGH PERFORMANCE AUTHENTICITY

Riga is XD Apparel's authentic multi-pocket, hooded and padded parka made in a rugged and sustainable recycled polyester textured canvas face fabric that wears well and looks even better. Carefully crafted panels in front and back infuse character to the rough and ready design. Additional features include shaped elbows to shave off excess fabric and provide unrestricted movement, a snap flap over the front zipper to keep water out and a wealth of pockets on the outside and inside.

THIS MAKES IT YOURS

Adding your company logo to a product improves the perceived value of the gift, contributes to the visibility of your company name and it makes the gift all that more personal.

All items in this collection can be decorated in one or more ways. All done in-house, so we know the products inside out. You just have to choose the technique and appearance that best fit the gift and the target group.

Pad printing

This method is the fastest and most accurate because it allows printing of logos with a high number of colours on usually most surfaces. Generally the print is applied on small objects made of plastic or other hard materials, on which the paint is transferred with a silicon pad.

Doming

Doming is a printing technique where several materials, mostly stickers, are being applied with a transparent coating. A resin layer (epoxyresin) gives a 3-D lens effect, and depth and extra brightness to colours.

Hot stamping

This is a dry printing method in which a heated die is used to apply graphics to a surface. The logo will keep the color of the material.

Silk screen

Silk screen printing is a stencil technique in which ink is forced through a mesh, originally of fine silk but now commercially more likely to be nylon. It's an all embracing process used on general materials, metal, plastic pens and PU (simulated leather).

Laser engraving

This technique uses a laser beam to print text, logos or drawings by engraving the object's surface. Generally it is used on metal but the same technique can also be applied with excellent results on wood or plastic.

Embroidery

This technology highlights the logo with elegance: the logo is embroidered on the object's surface. The embroidery can be made on plain/flat surfaces (clothing) or irregular/uneven surfaces such as hats, backpacks, bags, etc.

Transfer

This is a digital print on a paper label, it is then specially prepared for the transfer to be applied at high temperature on the object using a hot-press.

Diamond engraving

This technique uses a small diamond to engrave a text or logo on the surface of an object. This technique is used to engrave glass items mainly.

Digital print

This technology prints a digital-based image, like a photo, directly on a product. Perfect for short-runs, personalization and prototypes, the digital printing technology does not have any set-up time, which allows a short turnaround time.
